

Step 1: Identify your floor type

Chairmats are designed differently for differing styles of flooring. Choose your chairmat specifically for your workspace to prevent slippage or unwanted wear and tear.

For use with low pile commercial or rubber backed carpets without any padding.

For use on medium pile carpets 3/8" or less, including padding.

For use in a home or office setting including padding; is usually 3/4" or less.

Necessary for carpet that exceeds 3/4" in thickness, including padding.

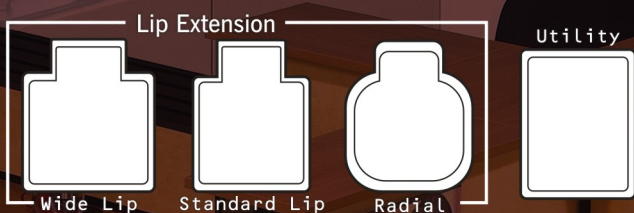

For wood, linoleum, or tile floors.

CHAIRMATS

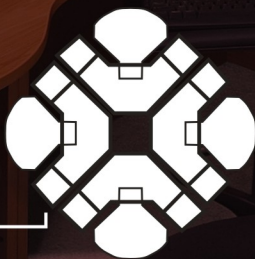

Step 1: Choose to fit your workspace

Chairmats are available in a number of different shapes and sizes. Pick the unique shape for your specific workstation. A lip extension chairmat is suited for single desk settings. A rectangular utility configuration is more suited to a desk and credenza arrangement, and a radial design provides more useable area for chair movement.

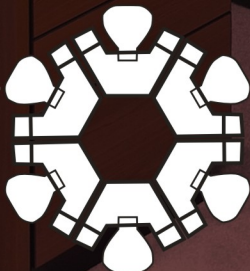

90° Clusermat
Ideal for 4 person workstations.

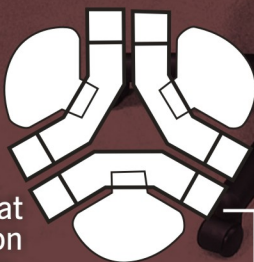

Clusermats

60° Clusermat
Ideal for 6 person workstation.

120° Clusermat
Ideal for 3-person workstation.

Made Easy

Step 3: Enjoy Your Chairmat

If more than one size or shape fits your workspace, determine if there are any features that may be beneficial. Some chairmats offer features such as bevelled edges or static protection.

Rubbermaid

No matter your needs, we have the chairmat that's just right for you.

Basic Care Tips

If chairmat becomes soiled, wipe clean with a damp cloth soaked in mild soap and water.

If it is necessary to roll your chairmat, unroll as soon as possible and place on a flat surface for 24 to 48 hours prior to use to allow to assume its natural shape.

Do not use mat in an area subjected to temperature extreme less than 16 degrees Celsius (60 degrees Fahrenheit).

Do not use a cleated mat in a hardfloor application. Cleated mats are intended for use only in carpeted areas. Handle cleated mats carefully.

And remember, if you ever have any questions, we are here to help.
